

Gold and Green

VERSE 1

We gather here to sing our praise of IS 234,
For Cunningham, that is our school, and that which we adore.
We learn respect, and to accept, those different from ourselves.
To find what's special in our hearts, three years is just a start.

VERSE 2

So join us on our epic quest, we'll go from child to teen,
We'll learn the rules, and books and things, and everything in between.
And in these walls where freedom rings, and we can dare to dream,
Through out our lives, we'll always hold our love for Gold and Green.

CHORUS

For three years we will soar, as Cougars we will roar,
We'll climb each mountain side; our hearts are filled with Cougar Pride.
For three years we will soar, as Cougars we will roar.
And as we all unite – our past is proud, our future bright.

VERSE 3

We're glad to say we go to school in Brooklyn, USA,
Oh Cunningham, dear Cunningham, we love you more each day.
Our teachers opened up our minds with knowledge that they bring,
A school that means so much to us, it makes us want to sing.

CHORUS

For three years we will soar, as Cougars we will roar,
We'll climb each mountain side; our hearts are filled with Cougar Pride.
For three years we will soar, as Cougars we will roar.
And as we all unite – our past is proud, our future bright.

VERSE 1(Ending Verse)
